Supplementary Figure 12. Representative electron micrographs of BAT of high-fat-fed Stk25 knockout mice and their wild-type littermates showing lipid droplets and mitochondrial structure. Magnification, X6300 (A); X20000 (B-C). Scale bars, 2 μM (A); 1 μM (B-C). HFD, high-fat diet; KO, knockout; LD, lipid droplet; M, mitochondria; WT, wild-type.
